

# AN OPTICALLY LOWER VARIANT OF THE MULTIFUNCTIONAL SOFA WING JORI DEVELOPS THE WING 'DIVAN BASE' VARIANT OF THE WING 'OPEN BASE'

DESIGNED BY **Hugo de Ruiter**

There are various opinions about the design of seating furniture. Some love a highly positioned model with an elegant frame, others prefer a low covered seating element, where you barely see the frame. In order to extend the **success of the multifunctional WING**, launched during the autumn of 2015, towards a larger public, JORI came up with a variant of the original open base-model: the WING 'DIVAN BASE'.

The WING 'DIVAN BASE' is oriented towards lovers of **functional**, optically low seating models, of which the seating or lying options can be adjusted **according to the needs of the moment**. This new version maintains the **ultra transformable** characteristics of its older brother, but is optically 10 cm lower with a seat that nearly caresses the floor. The seating height of both WING-models remains however identical.

In its default position the WING 'DIVAN BASE' is, just like the WING 'OPEN BASE', set up as a cosy '**corner sofa**', of which you can customize the seating comfort. But you can also go for the '**double chaise longue**' position to watch television or enjoy a nice chill. On the other hand, in no time, you can transform the WING into a '**lounge**' position' to lie down at full length. In '**island position**' you change it into a living environment on itself, to lay down, to read a book or to chill out all by yourself or in company of friends or family.

Just like the entire JORI collection the new WING 'DIVAN BASE' is manufactured with **craftsmanship** in the JORI production unit in Belgium and is available in a **wide range of qualitative leather and fabric colours**, which can be combined together. Both the leather as well as the fabric version are available with ornamental **stitch** or **pipng**. Indicative price: ± € 10.000 in basic **leather** / € 8.800 in basic **fabric**. The '**JORI CONFIGURATOR**' allows you to compose the WING 'DIVAN BASE', by means of a wide range of options, completely according to your wishes - **www.jori.com**

## DESIGNER **HUGO DE RUITER** (NL)

For the Dutch designer Hugo de Ruiter (1959) his design and functionality are the building stones of his creations, or design is only innovative when it combines striking **functional properties to a surprising design**. The designer finds his passion in nature, art, architecture and technology, but especially in life itself.
