INFINITY

RELAXZETEL

Design: Joachim Nees

Organic elegance with soul

Interior lovers already know: organic, sculptural design is not just a passing trend – it is a lasting lifestyle. For nearly a decade, soft contours and flowing shapes have been conquering the interior design world. Yet it remains an art to combine this sculptural character with sublime comfort and a touch of pure luxury.

With **INFINITY**, JORI – together with German designer **Joachim Nees** – sets a new standard in organic lounge comfort. Following the international success of the iconic **DAYDREAMER (2019)**, INFINITY takes the intimate seating experience to the next level – warmer, rounder, more embracing.

Every line exudes elegance: no sharp corners, only **sensual curves** that naturally invite **relaxation**. INFINITY is available in **Multi-Move, Mono-Move and motorized versions, and in three sizes** – always the perfect match for your **space** and **lifestyle**.

It can be finished in a rich palette of **luxurious leathers and fabrics**, fully tailored to your personality.

Like every JORI piece, INFINITY is crafted with **love and precision** in the Belgian workshops – a **masterpiece of craftsmanship** that gives your interior a **soul**.

Indicative price: from 4.770 EUR (incl. VAT) in fabric

TIGRA DIVANBASE LARGE

SOFA

Design: Verhaert new products

A few centimeters that change everything

What do a top athlete, an astronaut and a furniture designer have in common? That just a few centimeters can make all the difference. And the same goes for seating comfort.

With the new **TIGRA DIVANBASE LARGE**, JORI adds an extra dimension to one of its most beloved sofa programs: **12 cm of additional seating depth**. That may sound small, but for true **comfort seekers** it makes the difference between “just good” and “utterly heavenly.”

The Large modules can be freely combined with the standard seating depths – perfect for families with different tastes: one prefers a compact seat, the other enjoys extra space to sink back and relax. Even for singles who like to alternate, this combination is ideal: more options, more **freedom, always harmonious in design**.

As with every JORI creation, the TIGRA DIVANBASE LARGE is crafted with **care and expertise** in the Belgian workshops.

Available in the full range of **luxurious fabrics and leathers** – so your sofa becomes as **unique** as your way of living.

Indicative price: from 6.162 EUR (incl. VAT) for sofa 245 cm large in fabric
